

Blair Athol is excited to introduce our new, purpose-built Day Spa for the pleasure and enjoyment of our guests and visitors. Inspired by the Roman Bathhouses of the past with tall columns and an atrium roof, the Day Spa houses a 10.5 m mineral-rich magnesium pool and a 6-person mineral-rich spa with a waterfall cascading into the main pool.

Guests can use the oil-infused infra-red sauna or book a treatment in one of the beautifully appointed massage suites. Light refreshments and a variety of beverages can be taken in one of the comfortable sofas or day beds in front of the open fireplace or on the large terrace overlooking panoramic views.

We warmly invite our guests and visitors to enjoy a Remedial or Relaxation massage with one of our qualified therapists who are committed to the holistic health and well-being of each client.

Our Day Spa provides an elegant surrounding for both men and women to relax and unwind from the stresses of life. Robes, towels, toiletries and lockers are provided in our luxurious bathrooms.

Fresh, homemade food is offered in our servery along with alcoholic and non-alcoholic beverages, available for purchase. Magazines, books and games are on hand for your entertainment. It's all about indulging.....
